

27th July 2021

What is happening?

- Temporary hiring of Security personnel/guards in Desa Impiana.

Why is this happening?

Current security provider (KAMI Security) **NOT ABLE** to provide Security personnel/guards:

- Shortage of manpower due to quarantine requirement as few security member tested positive Covid19 after instructed to do Covid19 test by our Management.
- **No security personnel available** from 26th July 2021.
- Management needs to use in house resources (Cleaner, Landscapers) as a temporary replacement.

Was there any update/clarifications from current Security Provider?

- Yes, but KAMI Security failed to provide new security personnel due to current security guard in the process of quarantine period.
- KAMI Security **still** providing the same security personnel as they are the close contact from previous reported positive Covid19 security.
- Management **declined** Kami Security proposal on having the security personnel for the **safety of our Residents**.

Will there be any actions to current Security Provider?

- Warning letters has been given to Security provider management but **no response**.

Are we planning on changing to new Security Provider?

- Currently management is looking on every angle to further improve our resident's safety in Desa Impiana.
- As the community and resident is our top priority and concern, any option will be considered and decided thoroughly.
